

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application.

1-11. (Cancelled.)

12. (Currently Amended.) An apparatus for transferring compositions comprising:

a tank including an interior defined by walls;

a fluid transferring apparatus in communication with the tank for withdrawing fluid from the interior of the tank; and

a cover, removably attachable with respect to the tank, the cover moveable between a first position, where the interior of the tank is closed to the ambient environment and a second position, where the interior of the tank is open to the ambient environment; and,

a system for rinsing the tank, including, a fluid intake port; and, a dispenser in communication with the fluid intake port and configured for providing fluid to the interior of the tank for contacting the walls of the interior of the tank, the dispenser coupled to the cover.

13. (Cancelled.)

14. (Currently Amended.) The apparatus of claim 12 ~~13~~, wherein the ~~fluid dispensing apparatus~~ dispenser includes a nozzle in communication with a fluid transport line.

15. (Original.) The apparatus of claim 12, wherein the transferring apparatus includes a pump.

16. (Original.) The apparatus of claim 15, wherein the pump includes a diaphragm pump.

17. (Original.) The apparatus of claim 12, additionally comprising, a support member for receiving and holding the tank proximate to the ground level.
18. (Original.) The apparatus of claim 15, additionally comprising: a discharge line extending from the pump.
19. (Original.) The apparatus of claim 18, additionally comprising: a conduit extending from the tank to the pump.
20. (Original.) The apparatus of claim 19, wherein the tank includes a first cylindrical portion, for communication with the cover, and a second conical portion, for communication with the conduit.
21. (Original.) The apparatus of claim 14, wherein the fluid transport line is configured for coupling with a source of pressurized water.
